

Project Flow

Team ID	PNT2022TMID12028
Project Name	Car Resale Value Prediction

- The user interacts with the UI (User Interface) to enter the input features
- Entered input features are analyzed by the model which is integrated
- Once the model analyses the input, the prediction is showcased on the UI

To accomplish this, we have to complete all the activities and tasks listed below:

- Download the dataset.
- Preprocess or clean the data.
- Analyze the pre-processed data.
- Train the machine with preprocessed data using an appropriate machine learning algorithm.
- Save the model and its dependencies.
- Build a Web application using Flask that integrates with the model built.
